Happy Spring! Although the air is still a little on the cool side spring is fast approaching with Clubs being busy with their spring service events such as Maple Syrup Fests, Easter Egg Hunts, Pancake Breakfasts and more! This is the time of year when Clubs are also planning their Club Executive for the upcoming Lions year. By now your Club has received the Club Executive template from LCI and you will notice the changes to the Club Structure, some of these newly added positions can also be taken on by your Club Directors. The Global Action Team is here to help you with anything you may need or if you have questions. We do hope that you are planning to attend the A15 Lions Learning Seminar on April 29th in New Hamburg, there are many interesting sessions for you to consider especially those looking to learn more about Social Media and promoting the benefits of joining a Lions Club. FROM THE WHITE SQUIRREL

From District President Lioness Janet-Dawson Brock

Hello Everyone,

I am forwarding a note from our Hugs editor, Janie, regarding the cut-off date for the Spring edition of the Hugs magazine.

Janie would like to include information from the MD'A' convention and so far everyone we have talked to about this agrees, so we are pushing the dates to April 30th for final submissions and May 15 for mailing.

Could the District Presidents please send this information out to all your clubs? That would be great!

I am also going to ask our wonderful Administrative Assistant Rosemary if she could send it on as well, that way if a club gets 2 reminders we may get more submissions.

Thank you

Cheers, Lioness Kim

A huge thank you to Lioness Janet Dawson Brock for sending me the 1991/92 directory of Lioness Clubs WORLDWIDE!! This was the last LCI Directory put out, as it was 1991 when support for Lioness was withdrawn at the LCI level. Fortunately the support from Lions at the club and District levels was maintained in many areas which is why Canada still has over 2000 Lioness serving our communities.

Over the course of this summer I plan to track down as many U.S. Lioness as I can. I hope to encourage them to compile their own directory, state by state.

If there are any Lioness interested in picking a country and tracking down any remaining active clubs, that would be amazing

Committee meets to plan for pedestrian bridge

Estimated cost is \$200,000

REPORTER — A community committee met for the first time on February 8 to start the feasibility planning needed to raise funds and receive designs for the Ayton Bridge pedestrian bridge project on the South Humber Trail.

The cost of the bridge project is estimated at £100,000 and community donations and pledges have exceeded more than half that cost. A successful environmental fundraising campaign will help reach the amount needed and this will enable the bridge construction as early as 2018, according to the community working group.

The pedestrian bridge project committee elected Dave Payne as chair at the first meeting. The new chair said he was honoured to be chosen. He said the pedestrian bridge is an important project to give people the ability to walk from one section of the South Humber Trail to the other without having to use the highway bridge. The new chairman said he is looking forward to working with the community to turn this dream into a reality and to provide the health, safety, environmental, and recreational benefits the new bridge would provide. The proposed bridge will be located downstream of Moorfields Dam. It will give trail users an alternative to walk-

Members of the first meeting of the South Humber Trail pedestrian bridge project.

A group of community volunteers held their first meeting to develop construction planning and fundraising strategies in order to turn the dream of a pedestrian trail bridge – for the South Humber Trail – into reality. Above, the Ayton Bridge pedestrian bridge project community working group is shown at their first meeting on Feb. 8. From left are Lawrence Stephens and Paul Anstett of the Exeter Lions Club; Dave Payne, committee chair, of the Aunstable Hayfield Conservation Authority board of directors; Lorne Rutland and Linty Witham of the Friends of the South Humber Trail; and Peter Darbishire and Tom Proust, directors on the Aunstable Hayfield Conservation Foundation.

ing along Moorfields Dam. The bridge will enhance use of the trail for decades, according to the community working group.

The use of the Moorfields-Moorhouse section of the South Humber Trail has increased and vehicle traffic on Moorhouse Lane appears to have increased as well. That two-lane municipal road is the only way for people to link the north and south sides of the Moorfields-Moorhouse and Moorhouse Farm Conservation Area sections of the South Humber Trail. A new pedestrian trail bridge will change that, accord-

ing to the committee chair. The great trail has been reduced and trail crossing signs have been installed on the roadway. A pedestrian trail bridge would be a new piece added to the trail for the benefit of trail users.

To find out more about the, or search for 'Pedestrian Bridge' on the home page or go directly to this link: <http://www.ahca.org/page.php?page=pedestrian-bridge>

To donate to this project please contact the Aunstable Hayfield Conservation Foundation at 519-238-2810 or toll-free 1-888-288-2811.
