

Let's be Litterless Lions

Dinner Meetings – BYOP (Bring your own plate, cutlery, mug and cloth napkin)
Water jugs with tap water instead of plastic bottled water
Ask caterers to use pans/trays that can be returned
Reusable containers for leftovers

Community Events – BYOP (Bring your own place-setting), Recycle and
Compost Containers, Large jugs/containers for tap water

Food Trucks – Try to use recyclables, Set up Recycle and Compost Containers

Glen Morris Lions Litterless Story

- Our dinner meetings are held at the Community Hall and even though we have plates and cutlery there we ask everyone to bring their own place setting to avoid washing up after the meeting. Its easy to pop your place setting into a reusable bag and bring it to the meeting, I use a milk bag multiple times to carry the dirty dishes home. Our caterer sends the food in regular trays and pans and we wash those up and return the next day. Everyone brings their own drink and we supply coffee/tea/water. Attendees even bring reusable containers to take leftovers home. At the end of the evening there may be 3-4 paper napkins and some plastic wrap from the pies in the garbage.
- Our Community BBQ that feeds almost 200 people is also BYOP. The flyers for the event state to bring your own dishes and our intent to be Litterless. We do have plates and cutlery available for people that forget. The Community contributes salads and desserts and takes home their containers at the end of the event. We supply cans of drinks and have a recycle bin and in the past have had compost bins as well. We are still trying to work on less garbage from the burgers, sausage, and hotdogs that we cook. Bulk buying helps a bit.
