Here is what people are saying:

Waywayseecappo School decided to use Lions Quest as a school wide social skills resource because we wanted a program that could be used by all teachers for all students with plans, ideas for delivery and was proven to improve student outcomes. We also use the Seven

Teachings in our school and realized we can combine this with Lions Quest. Training all the teachers was a priority and we are grateful this was able to be done in our school. The parents and community are part of Lions Quest and we hope to create a stronger relationship with them through the program.

Waywyaseecappo Community School

Teaching virtually using your Kindergarten lessons was extremely successful because each lesson is easily adaptable to the individual differences among students and engages them through stories, connections, and inquiry questions.
